AGREE TO POSTPONE THE VOTE

Senate Administration Leaders Plan for McDermott Bill

TO AWAIT SUPPORT OF
HAMILTON SO-
LONS.

MEETING AT CINCINNATI

Is Being Held This Afternoon and Willis Forces Are in Hopes That Business Men Will Endorse the Measure, Forcing Hamilton Legislators to Vote for It.

(ASSOCIATED PRESS TELEGRAM) Columbus, May 7.—Postponement of the final vote on the McDermott liquor license decentralizing bill until Hamilton county senators can be lined up in its support, was planned tentatively by administration forces in the senate today.

It was on the calendar and was to have come to a vote late this afternoon.

Hope that the meeting in Cincinnati today of business men with the Republican central committee would endorse the McDermott bill and force Hamilton county legislators to vote for it, was the outstanding factor in determining the measure's fate. Administration leaders placed the Bauer Cincinnati Rapid Transit bill on the working calendar in the house and later removed it on suggestion from the governor's office, it was said. This move excited the anger of Cincinnati representatives. The only answer given them by the house leader Whittemore was that this had been removed "as the result of an agreement." It was reported that the Cincinnati business men had consented to its being withheld until the license decentralizer is passed but there was no confirmation on this point.

Senator leaders explained their tentative plans for preventing a final vote today by saying they had heard from Cincinnati that a delegation of prominent citizens would arrive late today to urge the Hamilton county senators to vote for the McDermott measure. Liberal Republican senators other than Hamilton county men also held in reserve today an amendment to make counties the licensing units.

If vote on the McDermott bill is not taken today, it is probable the fight will be postponed until next week, since the house today adopted a resolution calling for a recess tonight until next Thursday. The senate planned to take similar action when it convened.

House Leader Whittemore explained in support of the recess resolution presented by Representative Oberlin of Stark that it is planned to work Thursday, Friday and Saturday of next week and take the final recess on the last day for a week. This would bring adjournment sine die about May 22.

ACTION MAY BE TAKEN BY BUSINESS MEN.

(ASSOCIATED PRESS TELEGRAM) Cincinnati, May 7.—What attitude should the Hamilton county legislative delegation take on proposed liquor legislation at Columbus? Should they make any concessions whatever to the "drys" in order to secure their support for the Bauer rapid transit bill to insure the prompt passage of that bill?

If so, just how far should they go and what stand should they take on the liquor "decentralizer" bill? These are some of the questions which were under discussion when Cincinnati business men met with the executive committee of the Hamilton county Republican central committee in the Republican headquarters here this morning.

The meeting was called by the Republican committee as a result of the serious situation at Columbus in reference to the Bauer bill. E. W. Edwards, president of the Rapid Transit commission; William Cooper Procter, member of the commission; the chamber of commerce interurban committee, consisting of Otto Arader, Stewart Shillito, H. Q. Cleaney, C. A. Hirsch, President W. P. Rogers of the business men's club, President T. C. Powell of the Chamber of Commerce and others were invited to attend the meeting.

KURDS DESTROY MANY VILLAGES DURING RAIDS

(ASSOCIATED PRESS TELEGRAM) Tiflis, Transcaucasia, Wednesday, May 5.—Via Petrograd and London, May 7.—It has been officially established in Tiflis that the Turkish forces who recently, under the command of Thali Bey, occupied Dilman, numbered 18,000 men. This shows that their numerical strength was greater than that of the Russians and even in the final battle the Turks outnumbered their antagonists. The trophies taken by the Russians were a complete hospital outfit and enormous quantities of stores. It is not yet known how many prisoners were taken. The Turkish commander and the members of his staff all had narrow escapes from capture.

Reports received by Armenians residing in Tiflis, relate the murder of a member of the Turkish parliament named Wraman. A celebrated political worker named Ishkan, together with four companions, also lost his life with Wraman. The six men, at the time they were killed, were on their way to Shattuck to lead in the defense of the place against the Kurds. Ishkan also was a resident of Van. This Armenian city in Asiatic Turkey was bombarded by 500 Turkish regular troops who had with them three pieces of artillery. Armenians numbering 850 assembled in the village of Saragunis to oppose the murderous hands of Kurds threatening that place but the Kurds were aided by Turkish regulars and after a long struggle the detachment of Armenians were all wiped out with the exception of eight men who ultimately found shelter in the monastery of St. Tatviss.

An agent of the Armenian aid committee, after a protracted trip from Alashkirt to Dayzet, has reported that this region is fully occupied by Russians and that 6000 out of 25,000 refugees have returned to their homes.

The agent reports that many villages have been destroyed and that without exception, every village has been more or less damaged. The aid committee is buying back cattle and buffaloes looted by the Kurds.

The agent reports that he has been successful in bringing about a general return of Christians to the district east of Lake Urmiah. He says that 850 Armenian women have been sold into slavery by the Kurds, but that this number is generally believed to be much greater. It is reported that a total of 5000 Christians have been killed. Some estimates, however, place the total as high as 10,000.

President Wilson Informed of the Lusitania Sinking

(ASSOCIATED PRESS TELEGRAM) Washington, May 7.—President Wilson was informed of the sinking of the Lusitania and White House officials showed keen anxiety to learn whether any American lives were lost. No comment was made.

MOTHERS' PENSION LIST COMPLETED FOR LICKING CO.

Judge Robbins Hunter and Probation Officer John Dwyer completed late today, with the exception of four, the list of allowances under the Mothers' Pension act. Awards were made to more than 77 women, in sums ranging from \$2 to \$5 a month. Four homes are yet to be visited before the list is complete. This allowance was made possible a year ago by the passage through the legislature of a statute to create a Mothers' Pension. It is for the partial support of women whose husbands are dead, or have become permanently disabled for work by reasons of physical or mental infirmity.

DR. CARMAN TESTIFIES FOR WIFE

Noted Murder Trial Resumed Today With Physician On Stand

STORY IDENTICAL TO THAT TOLD AT FIRST TRIAL

SHOT THROUGH WINDOW

Described By Accused Woman's Husband, While Defendant Follows His Testimony Closely—Accused Will Testify In Her Own Behalf—Jury May Get Case Saturday.

(ASSOCIATED PRESS TELEGRAM) Mineola, N. Y., May 7.—Dr. Edward Carman described on the witness stand today in his wife's trial on the charge of murder, the shooting of Mrs. Louise Bailey in his office in Freeport, June 30, last. His story was identical with that related by him in the first trial. Mrs. Carman, who had prepared to testify in her own behalf late today, followed his testimony closely.

It was dark, Dr. Carman said, when he heard the crash of glass and looking up, saw a hand grasping a revolver thrust through the broken window. The state contends that the shooting occurred while it was yet daylight and opposes the theory of the defense that the assailant escaped in the darkness.

Before Dr. Carman was called to the stand, William R. Smith, engineer of the electric light plant at Freeport, testified that the street lights were turned on at 8:10 o'clock on the night of the shooting.

Mrs. Florence C. Carman was ready to testify in her own defense today in her second trial for the murder of Mrs. Louise D. Bailey. At the previous trial Mrs. Carman admitted placing a telephone device in her husband's office and said she had once rapped at the window through which the fatal shot was fired when a nurse called upon Dr. Carman. But she declared that she was in her room upstairs when Mrs. Bailey was shot.

George Hicks, the colored detective alleged by Celia Coleman, the Carman negro maid, to have told her Mrs. Carman would pay her \$300 to change her evidence, was a possible witness for the defense.

The case is proceeding so rapidly that it may be in the hands of the jury Saturday afternoon.

Lusitania, With Over 1300 Passengers Aboard, Is Sunk By Torpedo, Off Irish Coast

Two Victims of New York "Jack the Ripper."

Charlie Murray.

Leonore Anna Cohen

One tenement house section of New York City containing hundreds of thousands of foreigners is in a terror over the murder of two children by a "Jack the Ripper." More than 100 detectives of the police force are on the hunt for the murderer, who they believe is a maniac lucky enough so far to escape.

Leonore Anna Cohen, five years old, was attacked in the second floor hallway of her home, in the tenement at No. 352 Third avenue, March 19. Her abdomen was slashed. No sound was heard by tenants. The murderer made a clean escape.

Charlie Murray, four years old, was attacked in the ground floor hallway of the tenement in which he lived, No. 270 First avenue. His abdomen was ripped open with two long knife slashes in precisely the same manner as that of the little girl. The crime

was committed swiftly and in absolute silence, at the dinner hour, with tenants in their rooms on all sides. The murderer escaped without leaving the slightest clue.

The utter recklessness displayed by the criminal of this type is shown in the fact that both crimes were committed about the dinner hour, in the open hallways of crowded tenement buildings, with a polyglot, excitable population teeming on all sides. The cleverness displayed by both murderers is evident from the manner in which they made their appearance on the scene of the crime and their escape afterward. Despite the pools of blood found beside the bodies of both little victims, and the certainty that their assailants must have carried away long blades, blood stained knives, no person was found in either case who had seen the murderers depart.

BARNES CASE MAY LAST FOR 2 MORE WEEKS

(ASSOCIATED PRESS TELEGRAM) Syracuse, N. Y., May 7.—More testimony concerning public printing and public money was to be given in the supreme court here today at the conclusion of the third week of the trial of William Barnes suit for libel against Theodore Roosevelt.

William M. Ivins, chief counsel for Mr. Barnes, had made plans to call his first witness in rebuttal on Monday at the latest.

There was much speculation here as to how long it would be before the case reached the jury. The witnesses ready to testify in rebuttal number more than 25, including Mr. Barnes himself.

The consensus of opinion among the lawyers seems to be that two weeks at least would be needed to finish the trial.

Contingent Fund, Miss Elizabeth Oldham, Zanesville; Home Missions and Freedmen, Mrs. R. H. Mills, Coshocton.

Vice Presidents: Mrs. M. E. Wilhelm, Nashport; Mrs. M. Louise Stevenson, Dresden; Mattie Love, Fredricktown; Mrs. W. H. McGibben, Zanesville, and Mrs. William Callahan, Zanesville.

Big Cunard Liner Sailed from New York Last Saturday And Warning Was Issued That Boat, While On The Water, Was In Danger from Submarines

WIRELESS CALLS NUMBER OF SHIPS TO ASSISTANCE

It is Believed That All Passengers and Members of the Crew Have Been Taken Off In Safety, and Cable From London States That 20 Boats of the Lusitania Are In the Vicinity Where the Big Vessel Went Down—Just Before Steamer's Departure from New York Many Passengers Received Telegrams Advising Them Not to Sail, As Liner Was to Be Torpedoed By Submarines.

(ASSOCIATED PRESS TELEGRAM) London, May 7.—The Cunard line steamer Lusitania from New York, May 1, for Liverpool, with 1,253 passengers on board, was torpedoed this afternoon at 2:00 o'clock at a point about 10 miles off Old Head, Kinsale, Ireland, and later went down.

It is believed that her passengers are safe. No details of how they may have been rescued, however, are at hand. One message received here says: "It is not known how many of the Lusitania's passengers were saved."

Relief was sent out from Queenstown. If she floated a reasonable length of time before going down, it is possible that some of the rescuing ships got to her side. It is thought that the Lusitania's water tight bulkheads would tend to keep her afloat.

Two hundred passengers on board the Cunarder were transferred to her from the steamer Cameronia before she left New York.

The presence of German submarines in the trans-Atlantic lines of travel has been indicated by the sinking during the past few days of other British vessels off the Irish coast.

WENT DOWN AT 2:33 THIS AFTERNOON.

(ASSOCIATED PRESS TELEGRAM) LONDON, May 7.—The manager of the Cunard company has informed the Liverpool Evening Express that he received this afternoon the following message from the wireless station at Old Head, Kinsale: "The Lusitania was sunk by a submarine at 2:33 o'clock this afternoon, eight miles south of west (off this point)."

Kinsale, off which the Lusitania was torpedoed, is a seaport of Ireland, 13 miles southwest of Cork. It lies near the entrance of St. George Channel, between Ireland and England, through which trans-Atlantic vessels pass on their way to Liverpool.

(ASSOCIATED PRESS TELEGRAM) New York, May 7.—The Cunard liner Lusitania, one of the fastest ships afloat, was torpedoed and sunk this afternoon off the coast of Ireland, ten miles south of Kinsale. She had aboard 1253 passengers.

She sailed from this port last Saturday, May 1, and carried in addition to her own large passenger list, 163 passengers transferred to her from the Anchor liner Cameronia.

The news of her sinking was announced by the local office of the Cunard line and was based on cable advices received from the home office of the company in Liverpool. Three dispatches received in the order named were made public by the line and read as follows:

"We received from the Lands End wireless station news of repeated distress calls made by the Lusitania asking for assistance at once. Big list. Position ten miles south of Kinsale. Subsequently received telegram from Queenstown that all available craft in the harbor had been despatched to assist."

The second message to the local office read: "Queenstown, 4:59 p. m.—Wire begins about twenty boats of all sorts belonging to our line are in vicinity where Lusitania sunk. About 15 other boats are making for spot to render assistance."

The third cablegram was dated Liverpool and read: "Following received by admiralty: Galley Head, 4:25 p. m.—Several boats, apparently survivors, south-east nine miles. Greek steamer proceeding to assist."

Dispatches received here from London, Liverpool and Queenstown, confirmed the news. One of the messages said it was believed that all the big liner's passengers had been saved.

No definite news as to the fate of the passengers had been received by the Cunard line here early this afternoon. The Cunard line announced that it would make public as received all dispatches on the sinking of the Lusitania, including those relating to the fate of the passengers.

The stock market was stunned by the news. A torrent of selling orders poured in from every section of the country.

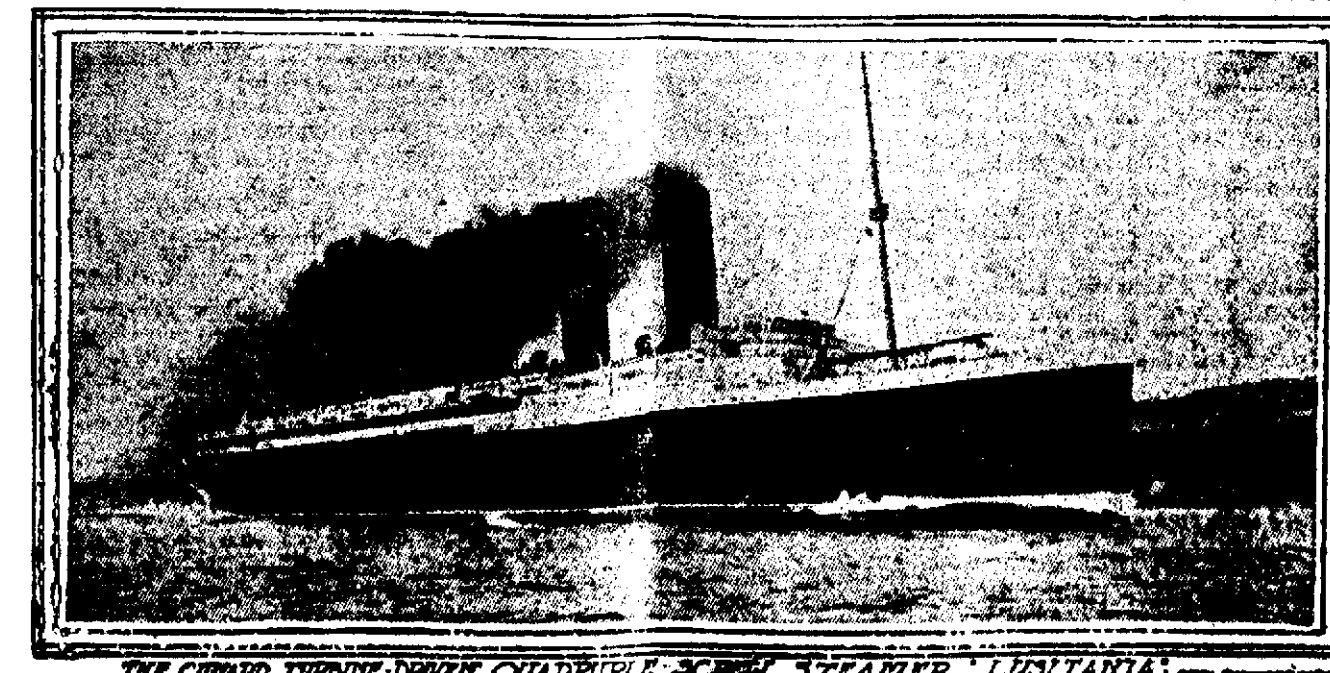

A period of intense excitement fol-

Entire Russian Divisions Annihilated by Murderous Artillery Fire of the Enemy

(ASSOCIATED PRESS TELEGRAM) Venice, Via London, May 7.—Field Marshal Conrad von Hotzendorf, chief of staff of the Austrian army, is credited by the Vienna Reichspost with having made all the strategic preparations for the Austro-German attack in the Carpathians. This operation was carried out so nearly according to program, the paper says, that the Archdukes Frederick and Charles Ferdinand, Baron Conrad and the entire general staff went on a special train to witness the vic-

tory they felt certain the Teutonic allies would win. Austro-Hungarian troops were used exclusively on the Northern line while the Germans supported them to the south. Russian regiments, brigades and divisions melted away under the murderous artillery fire. All the officers of the general staff of one reserve division were killed or wounded. The Russian trenches were stormed by infantry after the terrific bombardment by heavy artillery.

THE CUNARD TURBINE-DRIVEN QUADRUPLE-SCREW STEAMER "LUSITANIA"

Applied for Receiver For Mr. Rawlings Today; Liabilities \$250,000

Application was made, late today, in common pleas court for the appointment of Walter C. Metz, secretary-treasurer of the Newark Trust Company, as receiver for Addison L. Rawlings, the well known Newark piano dealer.

The liabilities, it is said, will aggregate \$250,000 or more, the assets consisting of the stock of goods in Mr. Rawlings' store in North Park Place, his equity in a large number of so-called piano notes and an interest, said to be \$1,500 in the Knabe Brothers Piano Company's factory at Norwood, a suburb of Cincinnati.

Mr. Rawlings left town yesterday morning presumably for Cincinnati but an effort to locate him at a number of the hotels there last night and this morning failed.

After three o'clock this afternoon Rollin F. Swisher, as trustee for Harry Swisher, filed a petition in common pleas court praying for the appointment of a receiver for Mr. Rawlings. Mr. Swisher's attorneys are W. A. Sharpe of Columbus and Albert A. Stasel of this city.

The petition alleges that Mr. Swisher holds Rawlings' paper to the amount of over \$120,000, a part of which is due and unpaid. Jones & Jones, representing the Hamilton Investment company of Chicago, and Fitzgibbon, Montgomery and Black, representing an investment company

of Cincinnati, filed answers and cross-petitions at the same time consenting to the appointment of a receiver. The Cincinnati concern is said to hold about \$70,000 worth of the Rawlings piano notes. A very small amount of these notes is held locally.

The petition alleges that the Swisher notes are secured by mortgages on pianos which Mr. Rawlings sold on time to customers in this and other counties and alleges that he collected certain money but has not paid same upon the notes held by Mr. Swisher.

Service was made upon Mr. Rawlings Wednesday evening at his home in West Church street but he has not since been seen.

Mr. Rawlings has been engaged in the piano business here for many years and has apparently been successful. He did a large volume of business as is indicated by the amount of "paper" which he sold to Mr. Swisher and to others.

In the absence of Mr. Rawlings from the city and owing to the late hour when the petition was filed a more definite statement of the situation is not given this evening. It is hoped, however, that Mr. Rawlings upon his return home may be able to adjust matters to the satisfaction of all concerned, but attorneys who are in touch with the case are not inclined to believe that the future will present a brighter outlook.

LUSITANIA

(Continued from Page 1.) not to sail as the liner was to be torpedoed by submarines.

Alfred Gwyn Vanderbilt was one of the passengers who received such a message. He destroyed the message without comment.

Charles P. Summer, general agent of the Cunard line was at the pier and in a statement made then said that the voyage of the Lusitania would not be attended by any risk whatever as the liner had a speed of 25 1/2 knots and was provided with unusual water tight bulkheads.

In commenting on the report of the torpedoing of the Lusitania today, marine men pointed out that in their opinion the Lusitania could not be sunk by a single torpedo.

If the reports are true that the Lusitania was torpedoed at 2 o'clock this morning and that she did not go down until 2:30 this afternoon, she was afloat for more than twelve hours a period of time which gave opportunity for the removal of the passengers.

It is not known just how far from

shore the Lusitania was when she was struck.

A dispatch from London set forth that assistance was sent to her.

The cablegram was preceded by the following message:

"Liverpool, May 7.—Lands End wireless reports distress calls made by Lusitania as follows:

"Come at once. Big lists. Position ten miles west Kinsale."

A third cable dispatch read as follows.

"Queenstown, May 7.—All available craft in harbor dispatched to assistance."

It was the steamer Lusitania whose flying of the American flag in the month of February on her way from Queenstown to Liverpool in order to protect her against possible attack by a German submarine caused considerable astonishment on both sides and resulted in the issuing a statement by the British foreign office justifying the use of a neutral flag under circumstances such as these.

The Lusitania was one of the largest transatlantic liners as well as one of the speediest. She was built in Glasgow in 1906. She was 785 feet long, 88 feet beam and 60 feet deep. Her gross tonnage was 32,500 and her net tonnage 9,145. She was owned by the Cunard Steamship company, Limited, of Liverpool. Her captain was W. T. Turner.

The presence of German submarines off the southern coast of Ireland and along the line of travel the

Lusitania would follow in going to Liverpool was made known in a dispatch from Glasgow last night which recited that the British steamer Cherbury had been torpedoed in the Atlantic off the Irish coast. This was on April 29. Two other vessels were sent to the bottom more recently, the Centurion and the Candidate. Just where these ships were attacked has not been made known, but their destination lead to the opinion that one or more German submarines have been operating in the line of transatlantic travel. It may be that they were waiting for the Lusitania and in the meanwhile attacked such other vessels as came within their range.

The Lusitania was a product of the race for speed which was carried on for years among transatlantic steamship companies particularly of England and Germany. When the Lusitania was launched she was the wonder of the maritime world. Her mastery of the sea, from the standpoint of speed, was undisputed. The progress of the Lusitania on her first voyage to New York was watched by the world.

About Over.

It was a bitterly cold night and small James, son of Mr. and Mrs. T. of Newark, made this an excuse for creeping into bed with his father and mother. Warmly ensconced between them, he suddenly remembered his prayers and, believing a reverential attitude to be absolutely essential in the matter, he knelt up in bed and began his silent devotions. This involved making a tent of the bedclothes and under these conditions they lose largely in efficiency. His mother finally called attention to this fact adding: "Jimmie, aren't you nearly through?"

"Yes, mother," he answered, "I've just got one more word."

Expression of Confidence.

The Pennsylvania Railroad has sold to a syndicate of bankers a bond issue of \$65,000,000. Last week the Baltimore & Ohio railroad sold \$40,000,000 of notes in a couple of hours, and the New York Central sold \$100,000,000 of bonds, nearly all being taken by the stockholders. This was the largest sale of corporation securities in the history of the New York money market. Here, within a week or a little more, are the sales by three railroads of \$205,000,000 of bonds and notes, evidence at the same time of the confidence of three great railroad companies in the expansion of business in the near future and of the readiness of investors to put their money into any good enterprise.—Philadelphia Record.

Good Times After the War?

Certain economists are showing that no matter how much the war wastes, good times must follow. Good times for whom? Good times for the widows who take in washing? Good times for the countless orphans left to struggle with a poor equipment of schooling? Good times for the generation yet unborn who must pay the interest on the public debt of \$4,000,000,000? Out of the way and out of the panic which will follow it the knowing bankers and speculators will reap huge fortunes, but the plain people who do the fighting must pay the last farthing. Very likely there will be high wages in Europe and with them high prices. It is suggested that the cost of the war will be compensated for by cutting down the cost of armaments. Who can say that the war will not breed a fear which will demand even greater armaments? No one really believed the war would come, and no one really knows where it will flounder or what disaster will follow in its wake.—Brooklyn Eagle.

Uncle Walt

THE POLITE MAN.

When Wigglesworth is on the street, a charming smile adorns his face; to every dame he bows to meet, he bows with courtesy, old world grace. His seat, when riding in a car, to any girl he'll sweetly yield; and women praise him near and far, and say he is a Chesterfield. Throughout the town, from west to east, the man for chivalry is famed. "The Bayards are not all deceased," the old man is named. At home this Bayard isn't thus; his eyes are blue, his face is sour; he looks around for things to fuss, and jabs the women by the hour. His daughters tremble at his frown, and wonder why he's such a bear; his wife would like to jump the town, and hide herself most anywhere. But if a visitor drops in, his manner changes with a jerk, he wears his false and shallow grin, and bows like some jilted knight. Then for his daughters and his wife, he wears his smile serene and fat, and callers say, "No sordid strife can enter such a home as that!" A million frauds like Wigglesworth are smirking on the streets today, and when at eve they seek their shacks, they'll beef and grout, the old state way. —WALT MASON.

COLUMBUS IS DEFEATED BY LOCAL ELKS

Visitors Royally Entertained at Club Room After the Game—Fine Luncheon Is Served.

The Columbus Elk team met defeat for the second time at the hands of Newark's crack bowling organization, the Elk team. A couple of weeks ago the local boys journeyed to Columbus and defeated their opponents on the Eddie Gottrost alleys in South High street and after the game they were taken to the Elk home where all were royally entertained at a chicken banquet.

The game last night was a return game and was played on the Pastime alleys, the big bowling alley and pool room being crowded with spectators, twenty-five "rooters" having accompanied the Capital City boys to this city. The different games were quite with splendid play on the part of members of both teams.

By Dickinson of this city had high score and high average. Following is the scores:

Columbus	1	2	3	Tot
Eisele	145	179	153	477
Carroll	173	150	168	491
Miller	143	125	125	393
Gottrost	171	172	180	523
Johnson	172	146	151	469

Newark	1	2	3	Tot
Jones	137	162	133	432
Gundenberg	146	132	152	430
Dickinson	191	180	257	628
Graesser	162	154	167	483
Harbottle	148	124	175	447

The alleys were decorated in the Elk colors, purple and white, and the national emblem was conspicuous over the room. The visitors were captained by Eddie Gottrost, one of the real live wires of the state capital, and he made things lively for everybody. Reuben Jones had charge of affairs for the locals.

After all the frames had been completed the visitors were invited to the local Elk club where a sumptuous lunch, prepared under the direction of Caterer Charles Dean and Steward William Hohl was served. William Gray and Frank Ransom looking after the comfort of the guests and serving the plates at small tables throughout the room.

After all had partaken of the splendid luncheon an impromptu program was carried out, remarks being made by the visitors in appreciation of the excellent time afforded them which was responded to by several of the Newark Elks, after which a feast of music, both vocal and instrumental was enjoyed. The occasion was one which will long be remembered by all who participated.

HALF HOLIDAY IS IN PROSPECT AT LIMA OPENING DAY

Lima, May 7.—For the last four days Manager Murray of the local squad of the Buckeye league has had his players on the field and training them for the coming season and trying to pick out the best of the recruits for the composition of a formidable nine.

The new uniforms for the team have not yet arrived.

The opening day of the season in Lima, May 10, will probably be a half holiday. If the half holiday is declared by Mayor Standish it is probable that the police will appear in a squad for the first time in their new uniforms. If it is possible there will be two mounted police to lead the parade.

WOMAN WOULD NOT GIVE-UP

Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa. — "When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound." — Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

WHAT'S THIS! IS KULL THE MAN WHO SIGNED HERE?

Canton, May 7.—Five more players were added to the roster of the Canton club of the Buckeye State League Wednesday by President F. G. Paige, and the quintet will report for the exhibition game at League park, Sunday with the Akron club.

John Barnhart, seen here as a member of the Zanesville club of the Central league has signed. He is a right hander, standing six feet, two inches. He was recommended by "Lefty" Wilhelm, Cantonian, also on the local corps.

L. C. Kull, an infielder, hailing from Paterson, N. J., will report Saturday as will Harry Walters, a shortstop, and Howard Armstrong, a pitcher, both of Cleveland. Armstrong last season was given a trial by the Philadelphia Athletics.

R. B. Carl of Uniontown, a City leaguer last season, will report to the club and try out for the base position.

Manager Wreath of the Newark club had negotiations with a player named Kull and expected the man to report here.

OHIO STATE STAR PITCHER HURT IN SLIDE TO PLATE

Columbus, O., May 7.—While sliding into the home plate on an attempted double steal, Wayne B. Wright, star pitcher of Ohio State varsity baseball team, fractured his ankle in yesterday afternoon's practice on Ohio Field. He had singled and taken third on Miller's clout. The two attempted a double steal. The ball was relayed home and Wright slid feet first for the plate, catching his right leg on the rubber. He was taken to Protestant Hospital. The injury is what is known as Pott's fracture and it will be eight or ten weeks before he will be able to be on his feet. His home is in Ceredo, W. Va.

Coming at this time, the accident is a serious blow to Ohio State's baseball hopes, as Wright is the leading pitcher of the team, having won three out of the four games pitched this season. He would have undoubtedly been Director St. John's selection for tomorrow's game with Purdue.

NEWNHAM SIGNS ERNEST HOOK AS BEST IN LEAGUE

Akron, O., May 7.—With the chamber of commerce declaring a half holiday on Friday, May 21, when the Buckeye League baseball season is opened in Akron, and players arriving in the city ready to take up practice, fans are taking an added interest in the doings of Al Lawson, owner of the Akron club.

Ernest Hook, a right hander who has been successful for the last two seasons in the Wisconsin-Illinois league, playing with Lincoln in 1913 and Streeter in 1914, reported Wednesday to Manager Al. Newnham, and attached himself to the Lawson pay roll. Newnham knows Hook personally, has seen him perform in many games, and is confident he will be one of the best twirlers in the Buckeye circuit. An exhibition game is to be played Sunday at Canton, and Manager Newnham will try and whip his team together by that time.

GRIFFITHS AND WHITE IN CANTON BOUT ON JULY 5

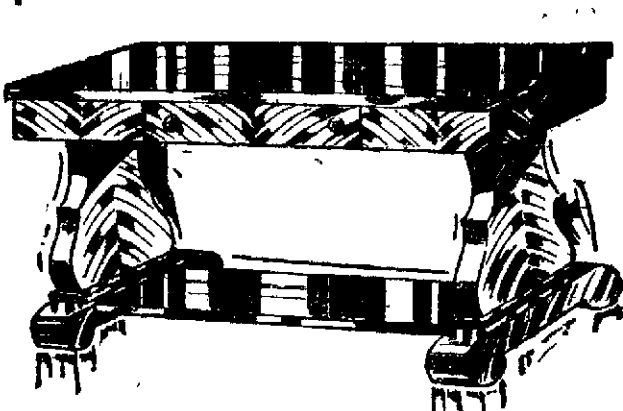

Canton, May 7.—Charley White of Chicago vs. Johnny Griffiths of Akron. This will be the headline of the outdoor boxing card for League park, July 5, under the auspices of the McKinney A. C. unless circumstances alter the case. At any rate lightweights will furnish the feature.

White, through his manager, Nate Lewis, wants the engagement. Horrie Strapp, handler of Griffiths, is just as eager. White and Griffiths met in Canton on Labor day, 1913.

Yesterday afternoon he sent a contract to Nick Francisco, a young Italian backstop touted as a "peach." Francisco, last year, caught for the Portsmouth team in the Ohio State league. No definite word has been received from Herz Bryndier, catcher of Bucyrus, about his becoming a member of the local club. First baseman Nor will arrive Saturday from Rockford, Ill., to take part in the exhibition game Sunday. Several local players are making strong bids for regular berths on the Marion squad.

NEWARK MAN ASSISTS IN GOOD WORK

Clean-Up Campaign at Youngstown, O., Develops Appalling Conditions—120 Buildings Condemned in Three Days.

Youngstown, O., May 7.—Deputy State Fire Marshals engaged here in the clean-up campaign have condemned thus far about 120 buildings and are bitter in their denunciation of the conditions which exist in Youngstown, claiming them to be the worst in the state.

Four deputy state fire marshals are engaged in the work including D. J. Conner, local deputy. The visitors are John Baird of Newark, John W. Holden of New Lexington and J. A. Anderson of Millersburg.

In the past three days the fire marshals have found many buildings which are fire hazards and which they have ordered torn down within the next 30 days. The men claim to have found several barns constructed of wood and situated within the fire zones which they claim is contrary to the law and which they claim were erected through the laxity of the city building department.

A bakery was found to be located on the first floor of a building in such a condition that soap suds from wash tubs located on the floor above dripped down into the bake shop.

The inspectors said that usually about six buildings a week are condemned in the ordinary city but that in Youngstown 31 buildings were condemned Monday, 21 Tuesday and about 60 Wednesday. Many of these buildings are sheds and out houses which have not been used for the past several years but which have been permitted to stand.

In several instances barns were found within the fire zones which were built of wood from dry goods boxes which is said to be contrary to the city laws. When these buildings were found to be in such a condition that they were considered a fire hazard they were torn down but frequently the inspectors were unable to order their destruction and were compelled to permit them to stand.

The work here will continue for the next few days and it is expected by that time to have several hundred buildings condemned. Unless the condemned buildings are razed within 30 days, Fire Marshal Conner will cause state wreckers to do the work and charge the expense to the owners.

(ASSOCIATED PRESS TELEGRAM)

DO YOU FEEL DEPRESSED?

The form of influenza commonly called "the grip" is no respecter of persons. Rich and poor alike suffer from it.

The duration of the acute stage of the grip is short, a few days at most. Without complications it is never fatal. What makes the grip so dreaded is the miserable condition in which it leaves its victims after the cold and fever have run their course. Some medical writers refer to this "after-effect" of the grip as a form of neurasthenia.

Depression of spirits, headache, thin blood, deranged digestion, over-sensitive nerves—these are the usual after-effects of the grip, and they will continue even for months and years until the blood is built up and made rich and red.

After an attack of the grip all the vital powers of the body are at a low ebb. Building up the blood with Dr. Williams' Pink Pills is the surest way to restore the weakened body. They have a special action on the nerves and every sufferer from the lingering effects of the grip should give them a trial. Your own druggist sells them.

Write today to the Dr. Williams Medicine Co., Schenectady, N. Y., for the free book, "Building Up the Blood." If you have stomach trouble ask for a diet book also.

In Milady's Boudoir.

BY GWEN SEARS.

Instead of glasses adding years to one's face, as is the general belief and lament, they often erase years.

Bags and circular puffs under the eyes are frequently caused by the lack of glasses. Facial neuralgia, too, is caused by severe eye strain. Stooping or rounded shoulders, and accompanying fatigue, are often produced by bending over near work on account of poor vision.

Frequently when eye glasses are prescribed, the eyes have only received a slight strain, and one should observe the physician's orders quickly, as a more serious strain may result from untreated but weakened eyes.

Eye glasses are made in so many attractive styles now a days that no one could possibly object to the wearing of them should they study the latest designs. And if there is any objection, it should be instantly removed by the good common sense which prompts every one to protect their faculties.

MRS. BENTZ IS ACQUITTED OF BABY'S MURDER

Bellevue, May 7.—Mrs. Adelaide Bentz, who was charged with poisoning the 3-months-old baby of Mrs. Ruth Madden, which had been left in her care, was acquitted by a jury here tonight. The defense offered no evidence.

The jury was out four hours. "God bless you all," Mrs. Bentz said to the jurors after they had found her not guilty.

CLAIM GERMANS HAVE SEIZED THE RED CROSS FUNDS

The dispatch states that Prince de Ligne has filed protests with Brand Whitlock, United States minister to Belgium and the international headquarters of the Red Cross at Geneva.

Your Boys and Girls

Without question there are children, who are "pictures of health" and at the same time lazy enough to exasperate their parents and teachers. When it has been made sure that the picture of health is not a deceptive appearance, it is time to look for their causes, and not till then. Judging from the experience of the schools, there are lazy children who have good health.

But the usual attitude toward indifference to work is hardly effective in making children get over it. To scold and to drive may help in getting a particular task finished, but is not very helpful in establishing habits of industry.

By nature the child adapts himself very readily to the establishment of such habits. In the first place there are the instincts of activity, the native curiosity and the imitativeness. And in the next place is the case with which repeated acts become organized into habits. Could anything be easier than to make a child get into the habit of doing something all of his waking time?

TO OBSERVE LABOR MEMORIAL DAY ON SUNDAY, MAY 23

Only three more weeks remain in which to make preparations for the observance of Labor's Memorial Day which will be May 23, and it behooves members of the various unions to be up and doing if they expect to observe the occasion as they should this year, one long to be remembered.

It usually requires time to complete arrangements. The main purpose is to get the full membership and their families and friends interested in the movement and then demonstrate their interest by attending the ceremonies.

The program is short and to the point, not a long drawn out affair. It is one that is desirable in any event. No matter how your organization decides to observe the occasion appoint yourself a committee of one to see that the full membership is present and do all in your power to help the work of your committee. Public invited, especially the ladies.

"Cards of condolence or sympathy are sent to friends in bereavement with the words: 'With deep sympathy' written across the top. Of course, one should, if possible, call and leave cards without asking to see any one, but if this cannot be done cards are sent by post," her aunt advised.

The correct glove for traveling is the Queen Elizabeth style in sand, putty, pongee or smoke

The silk in Kayser Silk Gloves is the reason for their lasting

More women wear them than all other silk gloves combined. Millions of women and twelve thousand dealers prefer Kayser Silk Gloves not merely because they are the best known gloves in Europe and America but because they have found out from actual experience that:

Kayser Silk Gloves wear so much better

The very foundation of Kayser Gloves—the Kayser Silk—is pure and strong. Fine workmanship alone could not make Kayser Gloves wear longer if the silk itself were not right. In 30 years of silk spinning, we have learned how to make use of a heavier pure silk thread (no weighting) without interfering with the delightful coolness of the gloves. You therefore get a silkier glove but not a heavier one. This makes Kayser Silk Gloves wear so much longer that millions of women have learned that the one thing to look for in a silk glove is the trade-mark "Kayser."

Modeled perfectly, they heighten the beauty of the hand and arm

Notice especially the shape of Kayser Silk Gloves, and how gracefully they fit the hand. The beauty of their appearance lasts, because the purity and strength of the Kayser Silk resist stretching. Even after they have been washed, their lustre and fit are unimpaired. Kayser Silk Gloves cost no more than the ordinary kind; two clasp are always 50c, 75c, \$1.00, \$1.25 and up; twelve and sixteen button lengths are always 75c, \$1.00, \$1.25, \$1.50 and up. The name "Kayser" is always in the hem and with each pair is a guarantee ticket that the tips will outwear the gloves.

PEACE PACT TO BE SIGNED BEFORE NIGHT

(ASSOCIATED PRESS TELEGRAM)
Cleveland, May 7.—With only a few odds and ends remaining to be adjusted, following a practical agreement, which was reached late last night, today's conference of miners and operators of the joint scale committee here was expected to see a peace pact signed which would end the 13 months' eastern Ohio coal strike.

It was understood that this morning a committee would be appointed to compile the several sub-divisions of the contract and that it will be formally adopted by tonight.

Following the signing of peace here, it is expected that the miners will call a meeting of the members in the eastern Ohio sub-district probably at Wheeling, W. V., for some day next week at which the agreement will be submitted to the miners for ratification.

RECORDS FOR MOVING ORE ARE BROKEN

(ASSOCIATED PRESS TELEGRAM)
Greenville, Pa., May 7.—All records for early iron ore movement from lower lake ports to furnaces over the Pittsburgh, Bessemer and Lake Erie railroad, were broken this week, when an average of 1000 cars was maintained out of Connecticut (O.) harbor. All the railroad's motive power is expected to be in use within ten days and arrangements have been completed, according to railroad officials, to secure a number of locomotives from the Chicago and Eastern Illinois railroad.

It was stated here that when the season is in full swing, forty ore trains a day will be handled.

LABOR

CONDITIONS ON PENNSYLVANIA
RAILROAD BEING INVESTIGATED.

Federal Industrial Relations Commission Continues the Examination of Witnesses.

(ASSOCIATED PRESS TELEGRAM)
Washington, May 7.—The federal industrial relations commission today continued its examination of witnesses as to labor conditions on the Pennsylvania railroad when G. W. Creighton, general superintendent of that road at Altoona, Pa., resumed the stand. He testified in answer to statements made before the commission yesterday by Samuel H. Moyer, former mayor of Altoona, in connection with the strike in the Pennsylvania shops there in 1911.

Moyer testified that the striking shopmen were peaceful but that Creighton had repeatedly urged him to arrest strike and labor organizers. He declined to do so, however, he said, because he had no right to do it. Moyer told of his efforts to settle the strike, saying that he suggested to Creighton that he take the men back but that Creighton declined to do so, because the time limit for them to return had expired. The witness said he told Creighton that unless he allowed the men to return to work he (Moyer) would lead the strike himself. This, Moyer said, resulted in an order to take the men back and that most of them returned.

MAY REQUISITION ALL WHEAT STOCKS

(ASSOCIATED PRESS TELEGRAM)
Paris, May 7.—Announcement was made today to the budget committee of the chamber of deputies by Premier Viviani and Minister of Commerce Thompson that the government intended to requisition all existing stocks of wheat, which will be resold throughout France at a fixed price. The ministers explained that the wheat supply was more than adequate to meet the requirements of the civil population but that requisition was deemed expedient to prevent speculation and the artificial inflation of bread prices. The measure proposed by the government is expected to have the effect of maintaining the existing low price and making it uniform throughout the country.

AN EASY WAY TO GET FAT AND BE STRONG

The trouble with most thin folks who wish to gain weight is that they insist on draining their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to the remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Evans Drug Store and other leading druggists of Newark and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution:—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles it should not be taken by those who do not wish to gain 10 pounds or more.

WOMEN'S MEETING OF PRESBYTERY AT ZANESVILLE

Zanesville, May 7.—The past year has been a very successful one financially for the Woman's Home and Foreign Missionary society of the Presbytery of Zanesville. The annual meeting of this organization began on Thursday in Central Presbyterian church and according to the reports of the treasurers, the amount raised for Home and Freedman missions this year is \$1,561.75 as compared to \$1,751.45 last year and for Foreign Missions, \$1,595.97, over \$1,437.65 last year. The greatest increase of money has been in the Central church of this city and the Second church of Newark.

The Thursday session was devoted almost entirely to business, and the following committees were appointed: Nominating, Mrs. Edward Kibler of Newark, Mrs. H. L. Kirkpatrick, Utica; Mrs. T. S. Humrickhouse, Co-shooton, and Miss Margaret Brown, Zanesville. Resolutions, Mrs. W. E. Clemens, Granville; Mrs. Ada Chapin, Roseville, and Mrs. J. Wilder of New Lexington. Entertainment for 1918, Mrs. Robert Alsford, Utica; Mrs. S. M. Swickard, Johnstown, and Miss Maude Elliott, Granville.

A business session occupied the afternoon and the program to follow was an address by Rev. A. V. Bryan and the young people's hour, during which the S. H. Kellogg auxiliary presented "Tired of Missions."

Rev. Mr. Bryan spoke on Thursday evening, his subject being "Present Day Japan." Mrs. H. B. McAttee was the speaker today, both morning and afternoon, and there was a business session for the election of officers. The meeting closed this afternoon.

(ASSOCIATED PRESS TELEGRAM)
London, May 7.—All Armenians in Constantinople are being kept under the closest surveillance, according to a Reuters dispatch received from the Turkish capital by way of Athens. Many priests, doctors and merchants have been exiled to Angora (a mountainous province of Asia Minor) but no others are allowed to leave the city. Wholesale arrests have been made and among the notables taken into custody is an Armenian member of parliament who has been regarded hitherto as one of the leaders of the Young Turks.

Ohio Legislative Notes

Columbus, O., May 7.—The key-
note of the situation in the Eighty-
first general assembly is the demand
on the part of the members of the
delegation from Hamilton county
that Governor Willis keep the prom-
ise made to them for the votes their
county gave to make Willis gover-
nor. The difficulty which has arisen
is due simply to the efforts of the
governor to sidestep responsibility
in this matter.

The deadlock over the liquor
license decentralizer is not because
of any love the Cincinnati people
have for the present liquor license
law but is simply predicated on the
knowledge they have that the crux
of the matter is in the administra-
tion of whatever law may be written
on the statute books. They feel,
that given a suitable local license
board and a friendly state license
commission, it will be just as easy
for Mr. Willis to allow them to en-
joy the full measure of freedom they
were promised as it was for Mr. Cox
to see that the law was enforced to
the letter. In other words the sim-
ple statement of their arguments is
that it is just as easy for the Wil-
lis administration to allow Sunday
opening as it was for the Cox admin-
istration to enforce Sunday closing.

The conference between the gov-
ernor, Peter Darr and others of Cin-
cinnati, and Rev. Z. B. Campbell, of
Ada, makes plain the terms of the
Cincinnati deal which was consum-
mated by State Chairman Ed. Jones
after the Rev. Mr. Campbell had
completed the outline in a confer-
ence with Hamilton county leaders.
It brings to mind the display adver-
tisements in Cincinnati newspapers
and in circulars distributed on the
eve of election that if Willis were
elected governor Cincinnati would
enjoy the fullest personal liberty un-
der home rule.

All of the work of the assembly
under domination of the governor
has been hinged on the Cincinnati
agreement. That such an arrange-
ment was possible is a disgrace to
the state, but that it has been per-
mitted to go forward in legislative
action and inaction is a crime for
which atonement will be demanded.

Democrats in the general assem-
bly must stand firm against any re-
peal of the present license law and
force Governor Willis to keep the
promise made to Cincinnati or re-
pudiate it utterly. If it is repudi-
ated it is a matter solely of interest
to Cincinnati in effect. In general
aspect the broken promise will array
itself with the other broken prom-
ises of the governor made to the
public utility corporations, to the
railroads, to the coal operators, to
the county clerks associations, and
to countless individuals within his
own party. But these things should
not be the source of worry to any
Democrat.

By passing the McFarland bill to
create an advisory agricultural com-
mission the house has made a farce

and a fake out of the Smith-Mallow
agricultural ripper. If the McFar-
land bill becomes law it will create
again conditions as they were before
the ripper was passed. The advis-
ory board is to be composed of the
secretary of the state board of agri-
culture, the dean of the agricultural
college, and the director of the Ohio
experiment station. The point is
made that they are to serve without
pay on the advisory board, but they
receive pay for the qualifying posi-
tions they hold just as they do now.

Not only by the record of its jour-
nal is the house showing its ineffi-
ciency but by actions of its officers
it is allowing itself to be made a
joke. There has never been a more
undignified session, when schoolboy
antics prevailed to such extent. This
week when Hoy introduced his civil
service resolution to submit an
amendment to foil referendum on
the civil service ripper the byplay
permitted by Speaker Conover was a
state disgrace.

The general appropriations bill is
being held up at the command of
Governor Willis in the hope that the
troubles he has permitted to ruffle
the legislature may be smoothed out
and adjournment is no nearer on the
seventh of May than it was on the
fifth of January.

AS SEEN BY THE FRENCH

(ASSOCIATED PRESS TELEGRAM)
Paris, May 7.—The French war
office this afternoon gave out the
following statement on the progress
of hostilities:
"The Germans delivered an at-
tack yesterday at the close of day at
Bagatelle, in the Argonne. It re-
sulted in a complete failure.
"On the remainder of the front,
particularly to the north of Ypres
and in the region of Vauquois there
have been violent artillery engage-
ments."

Colorado Labor Leader Found Guilty of Murder

John R. Lawson member of the
International Executive Board of the
Mine Workers of America, has been
found guilty of murder in the first
degree in connection with the death
of John Nimmo, a deputy sheriff, in
the coal miners' strike, near Ludlow
Colorado.

Nimmo was killed in a battle be-
tween deputies and striking coal
miners near Ludlow on Oct. 25,
1913. Lawson was one of the lead-
ers in the strike.

Lawson was sentenced to life im-
prisonment at hard labor in the Col-
orado penitentiary. The defense re-
ceived thirty days to file a motion for
a new trial, and Lawson was released
in custody of his counsel.

"They may get me," but they can't
defeat the cause of labor," said Law-
son after the verdict. "I'm not wor-
rying about myself—it's the fight I
have been making for the workmen
that I am interested in, and that
will go ahead. Even for me it's
a long way to the penitentiary. My
attorneys will not give up until
everything possible has been done to
save me."

Honore N. Hawkins, chief counsel
for the defense, said:

"I do not believe the verdict ever
will be sustained. It is contrary to
the evidence. I shall fight this case
as long as there are courts in which
to fight."

"Rockefeller's lawyers worked up
the evidence against Lawson, and
Rockefeller's detective testified in
the case to secure conviction. The
verdict is an unspeakable outrage.
The conviction is stirring the nation.
Telegrams are pouring in on us from
all over the country."

DEDICATION OF NEW ELK HOME AT BUCYRUS, O.

Dedication of the new Elk home at Bucyrus will be celebrated Thursday, June 3, and it is probable several Newark Elks will be in attendance at the ceremonies. The evening of Tuesday, June 8, has been set aside as reception night.

The dedication ceremonies will be strictly ritualistic in nature and will be attended only by local and visiting brothers. The work will be in charge of Elks of grand lodge standing. The public reception, to be held five days later, is to be in the nature of an open house. An automobile drawing will be held during the reception. The work of removing the furniture and fixtures from the present home of the Elks will be started at once so that the new home can be thrown open to the members before the dedication is observed. J. A. Mader has been appointed custodian of the home. He is an Elk of long standing and well known in Newark.

Constitutionality of the Webb-Kenyon Liquor Law—Up Today Before Supreme Court.

Washington, May 7.—The first case involving the constitutionality and construction of the Webb-Kenyon liquor law by which congress sought to divest liquor intended for use in violation of state laws of its interstate character, was up for argument today before the supreme court. The case concerned the carrying of liquor by express into dry counties in Kentucky. Similar transportation of liquor into West Virginia was concerned in another case which had been advanced to be heard with the Kentucky case. Cases of a like nature have arisen in eleven other states.

FORMER PREMIER RECALLED FROM VOLUNTARY EXILE

Paris, May 7.—A special dispatch from Rome says that former Premier Venizelos of Greece, who is now at Cairo, has been recalled suddenly to Athens in view of events which are impending.

M. Venizelos and his cabinet resigned when King Constantine declined to accept his recommendations that Greece enter the war on the side of the allies. He exiled himself voluntarily from his country when a question of veracity arose between the king and himself, declaring he would not return until he had been vindicated.

PURSUE SLAYER OF POLICE CHIEF TO THE MOUNTAINS

Glenville, W. Va., May 7.—S. T. Rose, alleged slayer of O. O. Thompson, chief of police of New York, has been surrounded in the mountains 10 miles west of Glenville by posse and a battle is momentarily expected, according to reports received here. Rose has been seen several times from the hilltops shouting defiance to his pursuers, but demands for his surrender have been met with a hail of bullets.

Chief Thompson was shot last Friday while attempting to arrest Rose on a forcible charge. Rose fled to the mountains, followed by posse from towns in this locality. According to reports Rose has been wounded in the hand.

The man hunt has caused great excitement for what little food he has had since the shooting occurred, has been secured by holding up farmers with his gun and forcing them to bring it to him in the open in order to prevent a surprise attack on the part of pursuers. Rose is said to belong to a prominent family of Nicholas county.

VATICAN ORGAN DEPRECATES WAR

Rome, May 6, via Paris, May 7.—Assessing that the war is near at hand for momentary decisions by Italy, the Observator Romano, the Vatican organ, deprecates in the strongest terms the war it believes probable. The paper protests against "the fury of degenerate nationalism which desires war for war's sake, hiding from the majority of the nation the dangers of participating in the cruel conflict which is shaking Europe like an earthquake, which lightly accepts war for war's sake without asking its justice, necessity or opportuneness."

The Great Marshal Ney. A recent English book about Marshal Ney, Napoleon's heroic lieutenant, "the bravest of the brave," brings out some interesting facts. This Frenchman was really a German. He was born at Saarlouis, now in Prussia and then and always German. He spoke only German as a child. He was red haired, with a wide face and round blue eyes. Five feet eight inches in height, he had a short body and long legs. His comrades called him "le rouge," which was equivalent to "carrots" or "bricktop." He was forty-six years old at Waterloo. So was Napoleon. So was Wellington. Marshal Ney was a man who was trained to the hardships of a workman's life. His father was a cooper, and in his boyhood work in his father's business he was accustomed to toil and exposure. This enabled him to sleep placidly in the snow on the return from Moscow, wrapped in his cloak, "with the starved, ragged soldiers of the grand army keeping guard and the Cossacks prowling around in the darkness."

The Statistical Fiend. We all know the bore that begins a sentence, "Statistics show." He can tell you how the daily flow of beer in St. Louis compares with the amount of Mississippi water that passes the city in twenty-four hours. He can state the tonnage of all ocean greyhounds, bulldogs, Pomeranians and curs of low degree. He knows how many men were slain in battles from that of Abancay or Aboukir to that of Zurich or Zolichow. He speaks as one having authority, and even those who run at his approach shake the head solemnly: "If old Augur says so it must be so." What a relief it is to find Sir William Ramsay admitting that the most accurate of statistics may lie! Some time ago the statement was made that 50 per cent of the total abstinences in a regiment stationed in India had died within a year. It turned out that the whole number was two, and one, while taking his morning walk, had been eaten by a tiger—Philip Hale in Boston Herald.

A Cardboard Planet. One remarkable achievement of Sir William Herschel was in connection with the planet Saturn. He had arranged to erect his telescope at Windsor castle to enable Queen Charlotte and the ladies of the court to see the wonders of the ringed planet, but on the evening arranged for the observation great banks of clouds covered the sky. However, he explained that that would not matter, and after the instrument had been carefully directed the queen and her attendants looked through it and saw the great planet and its marvelous rings quite distinctly. Herschel, it seems, had expected bad weather and during the day had made a cardboard model of the Saturnian system and erected it in the grounds, a lamp at the back providing the necessary illumination.—Westminster Gazette.

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by Evans' Drug Store, or any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

REHEARSING

"THE PIRATES
OF PENZANCE"

Will Be Staged in Recital Hall at Denison University Next Tuesday and Wednesday Evenings.

(Special to The Advocate)

Granville, May 7.—Dean Eschman of Denison Conservatory, is the busiest man in town just now—what with rehearsals of the Bagworth chorus, the Denison orchestra, and the musical comedy, outside his regular classes, he has had to roll up his sleeves in earnest. Rehearsals for the "Pirates of Penzance" to be staged in Recital Hall next Tuesday and Wednesday evenings are proceeding satisfactorily. It is a splendid chorop, which might almost be termed an "all star" cast, and the principals are all in fine voice. Holders of course tickets will attend the first performance, for which a few more seats may be had.

The Spring Festival will occur on May 19-21, with four concerts scheduled. Old friends and admirers of Miss Elsa Hirschberg-Lyon will be glad to learn that she has been engaged to sing the part of "Delliah" in the opera-oratorio to be given on May 20. There will be an artists' concert, an orchestra concert, and Rossini's "Stabat Mater," besides the "Samson at Delilah." Subscribers to the Granville Music course hold tickets to the Festival. An answer to establish the first estate was filed today, in common pleas court, in the case of Clarence Stradley, guardian for Sarah Stradley, against the Hartford Fire Insurance Co. The answer cites that the plaintiff did not carry out the provisions of the policy by notifying the company, in due time, of the destruction, by fire, of the house covered by the insurance policy.

THEORY AND FACT INCURABILITY OF BRIGHT'S DISEASE

Professor Tyson in his work on BRIGHT'S DISEASE says: "As to special curative measures, the diminishing Albumenuria. I believe there are none."
Old beliefs are tenacious. But no matter how venerable and sacred, theory must give way to fact. From a safe full of evidence we take the OFFICIAL figures in a recent test case the analysis being made by one of the most noted analysts in this city: Jan. 16 Albumen 2.00 gms. (24 hrs.) Jan. 16 Albumen .465 gms. (24 hrs.) This case was in extremis and the treatment was prescribed too late but in the face of the testimony of analytical chemists what becomes of the old dictum that there is no agent that reduces albumenuria? Lamarch has truly said the great difficulty is not in discovering but in getting the acceptance of new truths. But the light is spreading.
The ability of Fulton's Renal Compound to diminish albumenuria in many cases of Bright's Disease is not a theory but a FACT IN PHYSICS to prove which we will make formula for albumen test that will show the percentage from week to week. As the albumen declines improvement commonly follows, recoveries having been reported in thousands of cases. Formula and literature sent on request. John J. Fulton Co., San Francisco. Frank D. Hall, druggist, is local agent. Ask for pamphlet.

Why Teeth Chatter.
Although the muscles which affect the action of the jaws are especially under the control of the brain, the chattering of the teeth is really a spasm caused by chill or fear, and all spasms act independent of the will. The muscles which operate the jaw act in a series of involuntary little contractions which pull the jaw up and permit it to fall of its own weight. This action is quick, and the chattering occurs from frequent repetition. The cold has a similar effect upon the jaw muscles to that which some poisons have in causing spasmodic action in other parts of the body.

Henry Miller.
Henry Miller, 88 years old, died Thursday night at 9:45 o'clock at his home, 93 Hancock street following an illness of nearly a year of diseases incident to old age. He was born in Muskingum county, near New Concord, Jan. 23, 1827 but has lived in Newark several years. He is survived by five sons and two daughters. Funeral services will be held at the home Saturday afternoon at 2 o'clock, Rev. Mr. Hazlett officiating. Burial at Cedar Hill cemetery.

Fined for Speeding.

Arthur Bailey arrested a week ago on a charge of speeding, appeared before Mayor Bigbee Friday afternoon and was fined \$10 and costs. While riding in West Main street he collided with another motorcycle on which Wm. DeAngelis and Beatrice Ross were riding. They were uninjured.

Special Election.

The board of elections has granted Hanover township a special election, set for Thursday, May 20, to vote on the dissolution of the old Hanover rural school district. If this election is successful the Hanover township school will be annexed to the Hanover village district, thereby doing away with one high school.

CODDLING THE STOMACH

The So-Called "Scientific" Feeding.

In this 20th century of advancement, people are too apt to listen to new theories and put into practice new-fangled notions of feeding. Not only do adults follow so-called "scientific systems," but they cram down the mouths of their children such scientific soft foods that require no exercise of the digestive organs, and the children are apt to become fragile and their stomachs too weak to take in strength-giving food and be able to assimilate it. This is a hothouse condition that no man, woman or child should permit. The muscles of the stomach require exercise just as any other muscles of the body; neglect them with too much ease and inaction and you raise a dyspeptic. Use a tonic made of medicinal herbs which will stimulate the stomach into greater activity—a remedy which will do this is one which has stood the test of public approval for over forty years, containing no alcohol or narcotic. We refer to Dr. Pierce's Golden Medical Discovery.

It arouses the little muscular fibres into activity and causes the gastric juices to thoroughly mix with the food you eat, simply because it supplies the stomach with pure, rich blood. It's weak, impure blood that causes stomach weakness. Get good blood through the use of Dr. Pierce's Golden Medical Discovery, and you will have no more indigestion.

Sick people are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential.

KNOW THYSELF.

Read all about yourself, your system, the physiology of life, anatomy, hygiene, simple home cures, etc., in the "Common Sense Medical Adviser," a book of 1008 pages. Send to Dr. Pierce, Buffalo, N. Y., 3 dimes (or stamps) for a cloth-bound copy. —Adv.

Fatal Accident.

Wind and a drenching rain were doing their worst to make the lives of home going New Yorkers miserable when the conductor of an uptown car joined forces with nature and announced that everybody would have to take the car ahead or the car behind because that car wasn't going any farther. Protests rather more numerous and violent than common greeted that announcement.

"Can't be helped," said the conductor stolidly. "This car is all out of fix. It ain't fit to travel."

So, according to their custom when ordered to do a thing, the New York crowd did it, but one of the number continued to ponder on the disability of the abandoned car. No fuse had blown out, and it had run with only the ordinary noise and friction. Presently he said to the new conductor:

"What was the matter with that car we were hustled out of back there? What was broken about it?"

"The cash register," said the man. "They couldn't ring up any more fares."—New York Times.

Chi see foreign population increased from 100,000 in 1903 to 163,827 in 1913, owing largely to the influx of Japanese into Manchuria and other parts of China and of the Russians into northern Manchuria. The Japanese population increased 1,417 per cent during the period, the Russian 15,624 and the American 116 per cent. The population of China is estimated at 412,000,000.

Red Cedar For Pencils.
Missouri, particularly the Ozark hills, furnishes the greater part of the wood used in making lead pencils. Though many other varieties have been tried, none has proved as satisfactory as the red cedar. The cedars grow on the rocky hillsides all through the White river district of Missouri. They are small, stunted trees, seldom reaching a diameter of more than a foot at the butt. The logs are either hauled to the railroad and sent to the mill or floated in rafts down the river. At the mill the logs are first cut lengthwise by circular saws into planks. These are cut into right lengths for lead pencils, and those chunks go into the hands of men who with circular saws rip them up into what are called "slats." Only the red heart of the log is used. The white sapwood is thrown away. The slats are bound in bundles and sent to New York, where the greater part are worked up into lead pencils, and the remainder goes to lead pencil factories in Germany and other European countries.—Exchange.

The Perfect Suitor.
"Sir," began the young man, "I desire to ask for the hand of your daughter Belinda in marriage."
The father gave him one quick, searching stare. Then he demanded crisply:

"What is your rating?"

"My share of father's estate was two Broadway blocks."

The father held out his hand.

"Very good. Now go to her mother. Nothing can be settled until—"

"I understand," said the young man, and he went away, thinking profoundly.

"Madam," he began, "I wish to have your permission to pay my addresses to your daughter."

She looked at him haughtily.

"With a view to an alliance with our house?" she demanded incredulously.

"Yes, madam. I love!"

"One moment, please. Your family?"

"We trace our descent to Isabella de Vermandois."

She put out both hands.—Hartford Post.

Scotland.

Prior to the year 258, which witnessed its invasion by the Scotts, a tribe who inhabited the northern portions of the country now known as Ireland, Scotland bore the name of Caledonia, literally the hilly country of the Caeli, or Gaeils. The word cael, or gael, is a corruption of Gadhel, signifying in the native tongue "a hidden rover," while Scott, derived from the native scotie, means practically the same thing—i. e., a wanderer. The Caledonians were the inhabitants of the highlands, the prefix dun expressing the Celtic for hill, fort, stronghold, etc. The Scots were the invaders from Scotland, who appropriated the Hebrides and western islands, whereas the lowlanders were the Picts, so called from their description by the Romans, picti, painted men. —Names and Their Meaning."

Pure Sugar.

Even a chemist, surrounded by all his scientific laboratory equipment, can not distinguish beet sugar from the cane product. Although derived from different species of plants, the refined product from the juice of the cane and beet is the same in composition, in sweetening power, in dietic effect, in chemical reaction, in all other respects. Furthermore, if maple sugar were reboiled and passed through the process of refining it would lose its aroma and flavor, which are wholly in the impurities, and the white crystals would be identical with those derived from sugar cane and sugar beets. Pure sugar, whether derived from beet or cane, is as identical as is pure gold, whether mined in the Rocky mountains or in the Transvaal.—Argonaut.

Machievelli.

Nicolo Machievelli, from whose surname has been coined a synonym for treacherous craft, was a writer of various and concise Italian. He took his rank as a dramatist, his comedy of "Mandrangola" being pronounced inferior only to the work of Voltaire. Leo X. admired it so much that he had it played before him in Rome. His bow on the "Art of War" won the praise of so competent a judge as Frederick the Great of Prussia. His policy in statesmanship embodied in his work "The Prince" was the direct antithesis of Washington's sentiment that "honesty is the best policy."

Where Ignorance Was Not Bliss.

A story is told of a man who, crossing a disused coal field late at night, fell into an apparently bottomless pit and saved himself only by grasping a projecting beam. There he clung with great difficulty all night, only to find when day dawned that his feet were only four inches from the bottom.

Still on the Lookout.

"Before she was married she was constantly on the lookout for a husband."

"Well?"

"And since she got one she is still constantly on the lookout for him."—Houston Post.

Expected Too Much.

"Say, waiter," he growled, "this steak is not very tender." "Well, did you expect it to be tender?" replied the tired waiter as he took the plate away. —New Orleans Times-Democrat.

The Fruits of Love.

"That girl is a peach!"

"Ah! She is the apple of my eye." "Then I suppose you are going to make a pair."—Baltimore American.

Golden Sun Coffee is GOOD Coffee.

Cocoanut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulsified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

IS CHARGED WITH THEFT OF HARNESS

Art Deekham was arrested late Thursday by Sheriff Charles H. Swank, charged with having stolen a set of single harness and bridle from the barn of Joseph Mossman in Sixth street. In Justice D. M. Jones' court he pleaded not guilty to the charge and was remanded to the county jail to await trial. His case was called for 9 a. m. Monday.
